County of Sacramento

Retail Food Facility Official Inspection Report

Date:	09/18/2026
Page:	1 of 2

ESTABLISHMENT NAME: PIONEER HOUSE-LHCF Permit Holder: PIONEER HOUSE

Address: 415 P St City Sacramento Zip Code 95814 Phone (916) 442-4906

FA FA0005532	PR PR0078876	Type of Inspection INSPECTION
Program Identifier - PE: 1624 CT: 08.00		
Items listed on this report as violations do not meet the requirements set forth in the California Health and Safety Code commencing with section 7; 113700. All violations must be corrected within specified timeframe. Violations that are classified as "Major" pose an immediate threat to public health and have the potential to cause foodborne illness. All major violations must be corrected immediately. Non-compliance may warrant immediate closure of the food facility.		

14a.FOOD CONTACT SURFACES CLEANED AND SANITIZED

Observations: Paper debris on tooth of table mounted can opener. Use a sanitized wiping cloth to clean tooth of can opener between use. Correct today.

Note: employees wash, rinse, sanitize can opener daily.

Code Description: Food contact surfaces, utensils, and equipment shall be cleaned and sanitized at the following times: before each use with different type of raw food of animal origin, when changing from raw food to ready to eat food, between uses with raw produce and potentially hazardous food, before using a thermometer, any time during the operation when contamination may have occurred. Food-contact surfaces and utensils shall be clean to sight and touch. (113984(d), 114113, 114115, 114117, 114121(a), 114125(b), 114141, 114180(a-c))

23.VERMIN AND ANIMAL CONTAMINATION

Observations: The following evidence of cockroach activity was observed:

- Three glue traps inside garbage can in front of hand washing station in kitchen with dead German cockroaches. Glue trap observed with cockroaches must be crushed and then discarded in outdoor dumpster. Number of cockroaches, location, and date should be documented as best practice.
 - One glue trap on floor under dish sprayer rinse basin observed with live/dying German cockroach nymph.
 - One glue trap on floor under prep table to right of ice maker observed with live/dying adult German cockroach.
 - One glue trap behind the dish station filter/catch basin observed with dead German cockroaches.
 - Glue trap on floor in janitorial cockroach with fourteen German cockroach nymphs, and two German cockroach adults.
- Per employee, pest control services once per week.
Discard all glue traps with activity in outdoor dumpster and take action to eliminate cockroach activity.

A reinspection will be conducted within 14 days to evaluate cockroach activity abatement.

Code Description: A food facility shall at all times be equipped, maintained, and operated as to prevent the entrance and harborage of animals, birds, and vermin, including, but not limited to rodents and insects. Service animals as defined in section 113903 may be permitted in areas that are not used for food preparation and that are usually open for consumers if a health or safety hazard will not result from the presence or activities of the service animal. (113903, 114259, 114259.1, 114259.4, 114259.5)
